

CONTENTS

CARTE BLANCHE

- 4 Carlota Vaz Patto, Diego Rubiales: For a “legumified” greater World!

RESEARCH

- 5 Joseph W. Burton, Lilian Miranda: Soybean yield improvement: Achievements and challenges
- 7 Aleksandar Mikić: Root words relating to grain legumes in the proto-languages of Asia, Europe and North Africa
- 9 Tomáš Vymyslický: Minor forage legume crop genetic resources
- 12 Ozlem Onal Ascı, Metin Deveci, Zeki Acar: Hay quality of some native clover (*Trifolium* sp.) species from Asia Minor
- 14 Andrey A. Sinjushin: Mutations of determinate growth and their application in legume breeding
- 16 Julie Hofer, Nathan Greenaway, Mike Ambrose, Eric Ferré, Francisco Madueño, Cristina Ferrándiz, Noel Ellis: Leaves leave when flowers flower
- 19 Thomas D. Warkentin: Improving the health benefits of pea
- 21 Pádraig O’Kiely, Edward O’Riordan, Aidan Moloney, Paul Phelan: Forage legumes in ruminant production systems
- 23 Aleksandar Mikić, Svetlana Antanasović, Branko Ćupina, Vojislav Mihailović: Schemes for varietal mixtures of pea with different leaf types
- 25 Peter M. Gresshoff: Modern biology analysis of the legume tree *Pongamia pinnata* as a sustainable biofuel source
- 29 Diego Rubiales, Angel M. Villegas-Fernández, Josefina C. Sillero: Faba bean breeding for disease resistance
- 32 Alessio Cimmino, Marco Evidente, Marco Ması, Antonio Evidente: Phytotoxins produced by fungal pathogens of legume crops

EVENTS

- 34 Second International Legume Society Conference, Tróia, Portugal, 12-14 October 2016
